MICHAEL PRIMAK

FULL-STACK DEVELOPER

Hi, my name is Mike Primak. Thank you for taking the time to read my resume. I am an experienced full-stack developer capable across a wide variety of technologies and work environments. I have experience working in small developer teams, taking requirements directly from clients and then coding solutions. I have worked at SaaS companies, where I played a role in a larger team. I have also built complex solo projects which demonstrate my ability to oversee and execute any part of the development process.

WORK EXPERIENCE

Good Fights / Sept 2025 – Present / Remote

Founder & Sole Developer

I was the founder and sole developer, bringing this iOS and Android app to life. I am responsible for the full stack: React Native, TypeScript, Node, Next, Postgres, Prisma, Docker, AI enrichments and all infrastructure. A demonstration of my ability to execute every stage of app development.

LGBT Voice Tanzania / 2024 – Present / Remote

Volunteer Web Developer

Re-built an old WordPress site using a modern WordPress framework. Made the website easier to maintain, nicer looking, and more comprehensive.

Zerion Software / Apr 2024 – Nov 2024 / Remote

Implementation Engineer

I worked with a small team of developers to build custom features for B2B clients. The product was a customizable data collection app. I was on calls with clients gathering requirements and writing custom code solutions.

WellnessLiving Systems Inc. / 2018 – 2020 / Hybrid

White Label App Dept. Coordinator

Coordinated a team of developers, designers and support staff delivering white-label mobile apps to B2B clients. Worked with those clients through delivery: gathering what they needed, translating it for engineering and design, and staying with the account through launch and support.

Self-employed / 2016 – 2025 / Remote

Freelance Web Developer

Built and maintained business websites and WordPress/WooCommerce sites for small and mid-sized clients, owning consultation, design, build, deployment and maintenance.

SKILLS

LANGUAGES

TypeScript / JavaScript / Python / PHP / SQL / HTML & CSS

FRONT END & MOBILE

React / React Native (Expo) / Next.js / Tailwind CSS / WordPress / WooCommerce

BACK END & DATA

Node.js / REST APIs / PostgreSQL / Prisma / MySQL / Web scraping / Data pipelines

ARTIFICIAL INTELLIGENCE

LLM features in production / Output validation / AI-assisted development

INFRASTRUCTURE & TESTING

Docker / Linux VPS / GitHub Actions / Jest / Vercel / Render / App Store & Google Play release

EDUCATION

Georgian College
Big Data Analytics

COVER LETTER BY

MICHAEL PRIMAK

FULL-STACK DEVELOPER

Hi, my name is Michael Primak.

I am hoping you will consider me for a role at your company.

I am an intermediate full stack coder with extensive personal experience and intermediate organizational experience. For me, coding started as a hobby and I transitioned to tech as a career afterwards.

Organizationally, I spent 3 years in client facing roles, taking product requirements from businesses and translating them into customizations in B2B mobile apps. Most of my time was spent on video calls with clients, writing JavaScript in client code files or communicating with team members.

As a solo developer I have been learning the craft for 15 years. I have thorough experience writing HTML, CSS, JavaScript, PHP, SQL, Python and React. Within the last couple years I have adopted Claude Code as my code writing interface and it has allowed me to employ technologies that I did not know how to write before, like TypeScript, Node, Next, C# and more. I have built and managed websites for small business, e-commerce, affiliate marketers, non profits and launched web and mobile apps.

I am confident in my abilities to create software. I have taken the last few years to raise young children, but they have started school full time now and I am eager to get back into the workforce full time.

I would appreciate the opportunity to sell myself to you over a call.

Thank you,

MICHAEL PRIMAK
