MICHAEL PRIMAK

FULL-STACK DEVELOPER

Hi, my name is Mike Primak. Thank you for reading my resume. I have three years inside B2B SaaS companies: at Zerion I was on a small developer team writing JavaScript integrations for clients, and at WellnessLiving I coordinated developers, designers and support staff through 2,500+ white-label app launches. Since 2025 I have built and run Good Fights, a React Native and Next.js app on both app stores, where I use Claude as a coding partner and as a production feature. I work remotely from Meaford, Ontario, on Eastern time.

WORK EXPERIENCE

Good Fights / Sept 2025 – Present / Remote

Founder & Developer (goodfights.app)

Fight-rating app on iOS, Android and web. Designed, built and run by me: React Native (Expo), Next.js, TypeScript/Node API, PostgreSQL with Prisma, Docker on a Linux VPS. Scrapers pull fight cards from 10+ sites with merge tooling for duplicate fighters; Claude enrichment writes in-app content behind a confidence gate; 30+ scheduled jobs keep it running. Users have left 79,000+ ratings and 1,400+ written reviews.

Zerion Software / Apr 2024 – Nov 2024 / Remote

Implementation Engineer

On a small remote team of developers customizing a B2B data collection app for farms, warehouses, retailers and research groups. Met each new client on Zoom to learn their workflow, configured the app, and wrote custom JavaScript where the GUI fell short, including data pipelines from the app into client databases through Zapier, HubSpot and webhook integrations. Reviewed each solution with the client and reported to the founder.

WellnessLiving Systems Inc. / Feb 2018 – Aug 2020 / Hybrid

White Label App Department Coordinator

Ran the white-label app department of a B2B SaaS for fitness studios, taking each client from sale to a live app on the App Store and Google Play. Coordinated a dozen developers, designers and front-line staff, submitted builds to both stores, trained business owners, and rebuilt the Zoho CRM onboarding workflow (schemas, automations) so the CRM carried more of the work. 2,500+ apps launched in 30 months. Reported to both founders.

Self-employed / 2012 – 2025 / Remote

Freelance Web Developer

Business, e-commerce and non-profit websites in WordPress, WooCommerce, PHP and static HTML, owning consultation, design, build, deployment and maintenance. Volunteer: rebuilt lgbtvoicetz.org.

SKILLS

LANGUAGES

TypeScript / JavaScript / Python / PHP / SQL / HTML & CSS

FRONT END & MOBILE

React / React Native (Expo) / Next.js / Tailwind CSS / WordPress / WooCommerce

BACK END & DATA

Node.js / REST APIs / PostgreSQL / Prisma / MySQL / Web scraping / Data pipelines

INTEGRATIONS & CRM

Zoho CRM / HubSpot / Zapier / Webhooks

ARTIFICIAL INTELLIGENCE

LLM features in production / Output validation / Claude Code

INFRASTRUCTURE & TESTING

Docker / Linux VPS / GitHub Actions / Jest / Vercel / Render / App Store & Google Play release

EDUCATION

Georgian College
Big Data Analytics

Canadian Academy of Osteopathy
Osteopathic Manual Therapy diploma

Laurentian University
Bachelor of Human Kinetics

COVER LETTER BY

MICHAEL PRIMAK

FULL-STACK DEVELOPER

Hi, my name is Michael Primak.

I am hoping you will consider me for a role at your company.

I am an intermediate full stack coder with three years of organizational experience and over ten years of self-directed software work.

Organizationally, I spent 3 years in SaaS companies. I worked overseeing an onboarding process, managing a CRM and building custom code integrations for B2B mobile apps. Most of my time was spent communicating with clients, communicating with team members, writing code or refining a business process.

As a solo developer I have been building web and mobile apps for 15 years. I have thorough experience writing React, TypeScript, Node, PHP, SQL, Python and more. I have also adopted AI-assisted development and use Claude Code regularly. I have built and managed websites for small business, e-commerce stores, affiliate marketers and non-profits.

I would appreciate the opportunity to sell myself to you over a call.

Thank you,

MICHAEL PRIMAK
